POLITICAL.

In behalf of a portion of your fellow citizens, associated in efforts to promote the election of Henry Clay as President and Theodore Frelinghuysen as Vice President of the Union, we appeal to you for ardent and energetic co-operation in the great work of National beneficience which has called us together We shall endeavor to speak briefly and to the purpose.

We come before you with no hackneyed appeals to by gone distinctions—no unworthy attempts to perpetuate the prejudices and hatreds engendered by the party strifes of mouldering generations Let the dead bury their dead —We ask not whether your fathers sympathized and struggled with Washington, Marshall and Jay, or with Jefferson, Madison and George Clinton, in the political contest of forty or fifty years ago. It suffices us to know that you earnestly desire and strive for the well-being of your country, according to the best light afforded you, regarding the Past only to be guided by its experience and warned by its errors We ask your co-operation, not because the Whigs were once right, or because you may heretofore have voted with them—not because they *profess* to be governed by lofty principle and a generous devotion to Liberty—but because their *acts* tend to your benefit, with that of the State and Nation—because their measures are right essentially, and right *now*

What are the principles and purposes which distinguish the Whigs from their opponents?—They may be briefly summed up as follows:

The Whigs contend for,

I. A Tariff, which shall of itself afford a sufficient Revenue to support Federal Government, economically administered, and pay off its Debt, the Duties so adjusted and discriminated as to protect efficiently the Productive Labor of our own People against any depressing and ruinous foreign competition in the supply of our own markets. Our opponents as a party, oppose this, and insist that discriminations should be made for *Revenue* only, which would require *lower* duties on such imported articles as come in competition with the products of our own Industry, and higher on such as are only produced abroad

II. A National Currency, created by the action of Congress, carefully guarded against revulsion and depreciation, wherein every man may remit or receive, transfer or exchange, any number of dollars without the risk and heavy cost of a Mail transportation of Specie, and without depreciation or discount

III A Distribution of the Proceeds of the Public Lands equitably and statedly among all the States of the Union, so that each may enjoy and realize its rightful inheritance in the vast and fertile Domain achieved by the valor and purchased by the treasure of our forefathers, and all together may be encouraged to provide for the Universal Education of their youth, and for the prosecution of those beneficent and needful works of Internal Improvement which will prove a blessing to each and to all

IV. Last in order, but first in importance, Good Faith in all National as well as individual transactions, and an utter loathing of all Repudiation, whether of Public Debts and obligations, or of our solemn Treaty compacts with Foreign Nations and with the Aborigines of our own broad domain

These are the cardinal principles on which we find ourselves confronted and resisted by the opposing party, which, by nearly three to one in the House, and by *eighteen* to two in the Senate does its utmost to break down the present Protective Tariff and substitute a bill thoroughly and avowedly anti-Protective, and which has just nominated a determined, uncomprising enemy of Protection for President which every where avows its deadly hostility to the Land Distribution, and its determination that the Land Proceeds shall continue to pour into and be bisbursed from the Federal Treasury so as to induce constant oscillation and sensible depression in the rates of duty imposed by the Tariff, and the vast patrimony bequeathed to us by our Revolutionary ancestors shall year by year be expended on objects of a temporary interest, until the whole shall have been melted away, leaving no token of its existence but the stigma which our shortsighted improvidence shall have lastingly affixed to the American name

In regard to the Currency, we do not say what precise measure may be necessary to restore to the People of this Union the advantages of a Currency which shall be of uniform value in all parts of the Union, and readily transmissible from any one to another—we do not say what agency can secure us against the dangers of over-issues of Paper, which even now appear to threaten us, in defiance of our recent and terrible experience We do not prescribe to Congress the means it shall employ to attain the great ends of National beneficence we seek We do not doubt that, whatever may be the instrumentality employed, every avenue to corruption and perversion will be carefully guarded, and every objection which experience may have indicated or a reasonable hostility may suggest will be fairly obviated, and very great improvements made on any agency of former times —But that, if a Paper Currency is to be tolerated at all, it should be practically one Currency for the Union, and not twenty six varying, fluctuating, inconvertible Currencies, governed in volume and character by local interests and local caprices—that it shall be controlled, watched over and guarded by Congress, and that the President shall aid by his suggestions and co-operate with the action of Congress in creating and securing such a Currency—not thwart, embarrass and defeat such action—we hold to be the dictate of sound principle, of enlightened policy, and of patriotic duty

Fellow Citizens! do not imagine that you can evade the responsibility to God and your Country, of the course you shall pursue in relation to this matter Every man of you who votes for Polk and Dallas, both early and unqualified champions of Immediate Annexation, votes to precipitate the Union into an unjust, perfidious, nefarious War on Mexico, in which the sympathies of all nations from the outset, and very probably the arms of some of them in the event, will be arrayed on the side of the injured Nation But, even apart from this [illegible] lightly imagine that because a N[illegible] has a [illegible] palpably [illegible] perfidious robbery and [illegible] tribes we may [illegible] perp[illegible] to infinity [illegible] the probable [illegible] you, of a War a thousand miles from our [illegible] sources, and do not forget that in this contest the God of Justice must be on the side of our adversaries And let none deceive you with the lying pretence that War *might* not ensue—*the War already exists* between Mexico and Texas, and our absorption of the latter country would inevitably and at once make us a party to that War. For proof of this, if any be needed, we refer you to the bargain of Tyler and Calhoun to assume the defence of Texas even *before* the Treaty should be ratified, to the Letter of Mr Van Buren, and the speech of Col Benton.

And then the debt of Texas—does any one pretend to know its amount? *The Government of that Country does not*, having issued stock without keeping any account of it, and taking no care beyond converting it into available means at any conceivable discount, though bearing an interest of ten per cent. All these stocks must be redeemed, the long unpaid soldiers and sailors of Texas must be satisfied—and paid from the fruits of your sweat and toil if Texas is annexed to this country Silly is the finesse of pretending, by the Treaty of Annexation to limit the Debt of Texas, which we should pay, to Ten Millions of Dollars, we must pay to the uttermost farthing if we take her at all. The moment her National existence is merged in that of this country, her debts will be our debts, and we cannot repudiate them. Her creditors will take the Ten Millions very readily, and petition Congress for the balance of their claims, and we cannot honestly refuse to pay them. And all this time, the Lands of Texas, almost every fertile acre which is not possessed and formidably maintained by the warlike Indians of that region, have already been granted away in principalities to speculators, whom Annexation will boundlessly enrich at the expense of your unpaid toil

And for what is this measure of Annexation thrust upon us? Do we need more land? Are we likely to gain in wealth, in strength, in character, by so dearly purchasing Texas?—Surely not. What then is the motive? The answer of the advocates of Annexation is Slavery Slavery in Texas, they say—(falsely, we know, by indisputable evidence)—is in danger from the machinations of England, and we must take that country to prevent the emancipation of its bondmen. But if this pretext were real, what right have Messrs Tyler, Polk & Co. to involve the Union in an unjust contest for the perpetuation of Slavery in a Foreign Nation? Slavery in our own country is a local regulation, we of the North disclaim and reject it, why shall we be compelled to pour out our blood and treasure to sustain it in other lands? We appeal to the Constitution, and will not be dragged beyond it! All that our fathers covenanted with the South in relation to Slavery we will faithfully perform—nothing more We disclaim all right to interfere with the domestic polity of our sister States—we will be faithfu to our bond—but to ask us to adopt a Foreign Nation, a Foreign Debt, a Foreign War, to uphold Slavery in another country, lest its abolition there should affect its security here, is asking too much.

This incessant clamor about Foreign interference—this diseased sensitiveness to the opinions of Europe—this eternal outcry, that we are sacrificed to the wiles of Great Britain, is an exhibition of cowardice that every sensible American should contemn and despise If England should ever assail the South, or any other section of our country, we are ready to meet her and defend our brethren if so assailed, but to be eternally suspecting and accusing her without evidence, of designs she utterly disclaims, and thereupon plunge ourselves into acts of rapacity and aggression—this we are utterly averse to

But in truth there is no thought of Foreign interference to abolish Slavery in Texas, and no danger of any crusade thence against the Slavery of the South The whole plot is the contrivance of selfish, designing politicians, and of grasping, needy speculators, anxious to turn their Texas bonds, costing dimes, into so many dollars, or to sell their immense grants of Lands, which cost them little or nothing, at liberal prices They can well afford to spend or promise millions to influence this contest, but those millions will ultimately be paid from your toil Act wisely, earnestly, speedily, then, Freemen! as becomes enlightened lovers of Justice, of Freedom, and of Humanity!

Of the rival candidates presented for our suffrages, we have not spoken—*need* we speak?—There is none among you, so ignorant as not to know something of Henry Clay—there can be hardly one so blinded by passion and prejudice as not to regard him with something of manly pride as a fellow citizen The trumpet tones of his impassioned eloquence, pleading the cause of oppressed and suffering Humanity, have swept across the hills of Greece in the hour of her deepest anguish and desolation, and at their sound the despairing widow by the tomb of her martyred husband, has dried her tears and dreamed of a future, glad with the sunlight of Glory and Freedom! His burning words in behalf of South American Independence from Colonial vassalage, have been heard at the head of the armies of Bolivar, cheering the hearts and nerving the arms of those who fought to deliver a Continent from its long night of misrule and devastation, and restore to it the gladdening airs of Liberty! Believe all you do not *know* to be false of the slanders now so profusely heaped upon his head by those whom he has not stooped to flatter or aided to plunder, and there will still remain enough of the lofty and the noble in his character to secure the admiration of every generous heart That his life has been faultless, his judgment infallible, we do not pretend—let him who has never erred condemn him—let him who is more beloved and esteemed by his neighbors and townsmen, attempt to blacken the name of Henry Clay! Of Theodore Frelinghuysen, we need not speak, his praise is on all truthful lips, and even slander's tongue recoils from the hopeless task of defaming *him!* These are the men, Fellow Citizens, whom we solicit your aid in electing as President and Vice President Opposed to them are James K Polk, of Tennessee, and George M Dallas, of Pennsylvania—choose ye between them!

In opposition to the Whig policy in regard to the Currency, what is proposed to you? What advantage for the present, What security for the future? Does the policy of our opponents even admit the usefulness of a Currency which shall be of the same value to the man who emits it at Portsmouth and him who [illegible] receives it at Du Buque or Galena?—to him who sends it from New York to Wisconsin to buy lands and him who remits it from Wisconsin to New York to buy goods? Do they [illegible] se any safeguard against excesses in Paper Issues or sudden contractions in the Circulating Medium? If we admit that the best efforts to secure or preserve a public good may sometimes fail, is it not certain that an utter absence of effort—a denial even of the duty to make any effort—must be far more frequently and widely disastrous? How can you expect that they will do any good who frankly tell you that they consider it wrong to do any thing at all?

But the Sub-Treasury is unburied by the late Polk Convention at Baltimore, and we are told by its resolutions that "the separation of the moneys of the Government from Banking institutions indispensable for the safety of the funds of the Government and the rights of the people," Now it is a very short answer to this sophism that its authors and advocates are *careful not to reduce it to practice where they have full power.*—Most manifestly, if this 'separation, is so 'indispensable' with regard to the funds and functionaries of the National Government, it is equally so with regard to those of the State Governments. Why, then, do not those politicians put their principles in practice in those seventeen or eighteen, States in which they have been in power the past year? Time after time has the gross inconsistency of their practice with their professions been pressed upon their notice—again and again have they been urged to give some reason or at least some excuse for not merely depositing with and borrowing from, but largely lending to our State Banks, and in every way complicating and interweaving our State Finances with the fortunes of those Banks while they are so vociferous for a 'divorce of Bank and State,' but not a word of reason or apology do they offer! Is not this silence their self condemnation? Does it not betray even their own conviction that the cry of 'divorce' is but a trap for the uninformed and unwary? And how dare they talk of 'the safety of the funds of the Government being promoted by their scheme, when it is on record that not a dollar of the four hundred millions deposited through forty years in two National Banks was ever lost, while scores of individual depositories proved defaulters under their own rule, and all the bars and bolts of a well-manned and costly Sub-Treasury could not prevent their last Collector at New-York from absorbing over $200,000 of the Public Treasure, in addition to the princely income allowed him by law?

On the old issues of 1840, then, Fellow Citizens! we are ready and anxious to meet our opponents Let them deny and misrepresent the Whig Tariff; let them rail against the policy of securing to New York her just and equal share of the Public Land Proceeds, which would largely aid her to complete her unfinished Works and dispense with her Direct Tax—let them distort and bewilder the Currency question as they may—we are confident that a struggle like that of 1840 would result in a similar Whig triumph But such a contest is not allowed us Our opponents dreading defeat on the broad National grounds on which they were so decidedly beaten before, have introdued a new and ostracised their late leader, Van Buren, and chosen one in his stead of more slender ability and humbler reputation, whose cheif reccobmendation to his supporters is his advocasy of the Immediate Annexation of Texas to this country, in palpable disregard of the Federal Constitution—in open violation of our Treaties with a friendly Foreign Power in utter contempt of the outraged sentiment of the civilized world—and under circumstances which not we only, but Messrs Van Buren and Benton, the late chiefs of the adverse host, declare in effect, must involve us in the deep guilt of perfidy, rapacity and agression, and in the horrors of unjust and interminable War

---

How the Nomination is Received

The New York Evening Post, in the bitterness of its disappointment at the defeat of Mr Van Buren, gives vent to its indignant feelings in the following plain but energetic language

[From the Evening Post of May 31]

The Result of the Baltimore Convention.

The struggle in the Baltimore Convention between the friends of Mr Van Buren and those who were determined to exclude him from the nomination for the Presidency, because of his opinion concerning the annexation of Texas, has ended in a sort of compromise by which the nomination has been unanimously conferred upon Mr Polk of Tennessee Mr Polk is a man of handsome talents, of a fair and manly character, and right views in regard to the questions on which the two parties of the nation are divided, but like most southern politicians, is deplorably wrong on the Texas question

Meanwhile, Mr Van Buren retires from the field with more honor than could possibly await upon any man to whom the convention might offer the nomination. He has sacrificed the chance of being the candidate of a great, and in nine times out of ten, successful and ascendant party, to the honest expression of an opinion in favor of observing the law of right in our behaviour towards a weaker nation He retires, ostracised, like Aristides, because he is too just for the times No part of his public life, great as are his merits, will have a fairer place in history than the act of noble frankness by which he lost a second nomination

Of the result to which the Convention came, we must speak with sincerity, but we desire to speak with moderation We have called it a compromise, but it is one of those compromises in which the concession is all on one side The southern delegates were determined that no man should be nominated who was not in the way of thinking in regard to the annexation of Texas, and showed themselves ready to support any man who might be named—the thinnest and feeblest shadow of a candidate—provided he agreed with them on this question They have carried their point, as they usually do such controversies, and the North have submitted

* * * * * *

We have no taste for the unravelling of these mysteries, but we believe that if the secret history of the Convention, [illegible] the adoption of the two thirds rule [illegible] various proceedings could be written, a [illegible] number of the delegates would stand disgraced in the eyes of their constituents

☞ Our thanks are due to [illegible] & Co and to Gilman's Expresses for Boston and New York papers received by the last boat in advance of the Mail

Whig and Courier.

JOHN S. SAYWARD, Editor.

THURSDAY, JUNE 13, 1844.

Our cause is just---our union perfect.

WHIG NOMINATIONS.

FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY.

FOR VICE PRESIDENT,
THEODORE FRELINGHUYSEN.
OF NEW JERSEY.

☞ SEE FIRST PAGE.

WHIG CAUCUS.

THE Whigs of the City of Bangor are requested one and all to assemble at the City Hall on Thursday evening June 20th, at half past seven o'clock, P. M. for the purpose of selecting Delegates to the State Convention to be holden at Augusta on the 26th inst. Per order of City Com.

Fourth of July.

It has been suggested that the whigs of this city should celebrate the approaching Fourth of July by a procession, oration, public dinner, &c. and the subject has been considered by the executive committee of the Clay Club, and they have concluded that it is inexpedient so to celebrate the day. The great Mass State Convention will be holden at Augusta on the 26th of June, which will draw away from the city just previous to the Fourth of July, a large number of whigs. It has been common too for the Fourth to be celebrated by various pick nick and other parties, and in the neighboring towns, and there is to be a celebration in the city by the locos on that day. It is also in contemplation to have a grand Mass Convention in the city in the month of August. These and other similar reasons have led to the conclusion mentioned that it is inexpedient for the whigs to have a party celebration of the Fourth of July.

☞ The proposed Elocutionary and Musical Soiries of Messrs. Murdoch & Johnson, advertised in our columns, and the course of lessons on Elocution by Mr Murdoch are worthy the attention of our people. The entertainment these gentlemen furnish at their Soiries has been emphatically pronounced by those qualified to judge who have attended them in other cities to be of the highest character. We feel confident our people will greatly enjoy these exhibitions and we trust will turn out in large numbers and give Messrs M & J. an enthusiastic greeting.

The young men in our city and all who would be good readers and acquire the art of public speaking, now have an opportunity to place themselves under an able teacher—an opportunity they ought not to neglect. Mr Murdoch occupies the front rank as a teacher in the art of elocution, and is worthy the entire confidence of the community.

Raising the Banner.

The Clay Club yesterday noon raised a large National Flag, having beneath and connected with it the honored names of Clay and Frelinghuysen, upon the neat flag staff on the New Market House. The banner on being unfurled to the breeze was cheerily greeted by the roar of cannon in a National Salute, fired by a volunteer artillery company.

The Head Quarters of the Clay Club are established in the chambers over Kenduskeag market, are well supplied with papers and documents, and will be kept open day and evening for the accommodation of the whigs in town and country until after the election of Henry Clay to the Presidency. All whigs are invited to visit these rooms.

☞ Our readers will find upon the first page an eloquent address to the whigs of New York, written by Horace Greely, Esq., and reported to the late Mass Convention of the Clay Clubs of that State assembled at Utica. We take this opportunity to remark that much original and political matter will generally be found on the first page of the Daily.

Help in the Temperance Cause.

We are requested to state that Neal Dow, Esq and John T. Walton, the celebrated Portland Washingtonian, will lecture our citizens on the subject of Temperance on Saturday and Sunday evenings. These men are heartily engaged in the good cause and are eloquent pleaders in its behalf They are known throughout the State for their zeal and power Our people will receive them thankfully. It is hoped they may be induced to attend the great mass Temperance Convention to be held at Orono on Monday

☞ We would remind our readers that Mr. Harding will give a free lecture on Phrenology at the City Hall this evening. His rooms for the examination of heads and giving analasis of character are quite attractive.

The Texan Treaty Rejected in the Senate!

Advices from Washington furnish the gratifying news that the Texas treaty was rejected in the Senate on Saturday evening, by a vote of 16 yeas and 35 nays! The following is an extract of a letter from the editors of the N. Y. Express, describing the result:

"Fifty-two Senators were present, and fifty-one voted, Mr Hannegan of Ia., declining to vote. The following are the yeas and nays—It will be seen that Mr Henderson of Miss., (who probably felt himself instructed) was the only Whig who voted for the treaty.

Benton and Wright, the strong men of the other side voted against it, carrying Allen, Atherton, Niles, Fairfield and Rappan, and throwing Hannegan of Ia., off the track. Delaware, Maryland, Virginia, Louisiana, Kentecky, among the Slave States, were unanimously against the treaty, and North Carolina, Georgia and Missouri, had a divided vote. A majority of the Senators representing the Slave States were therefore opposed to the treaty.

For the Treaty.		*Against the Treaty.*

Divided—New Hampshire, North Carolina, Missouri and Georgia.

Declined to vote—Mr Hannegan of Indiana.

Necessary vote to ratify the treaty,	34
Vote given for it,	16!!

The following are the yeas and nays upon the treaty—the Loco Focos voting against it being marked with an asterisk:

YEAS—Messrs. Atchison, Bagby, Breese, Buchanan, Colquit, Fulton, Haywood, Henderson, Huger, Lewis, McDuffie, Semple, Sevier, Sturgeon, Walker, Woodbury—16.

NAYS—Messrs. Allen,* Archer, Atherton,* Barrow, Bates, Bayard, Benton,* Berrien, Choate, Clayton, Crittenden, Dayton, Evans, Fairfield,* Foster, Francis, Huntington, Jarnagin, Johnson, Mangum, Merrick, Miller, Morehead, Niles,* Pearce Phelps, Porter, Rives, Simmons, Tallmadge, Tappan,* Upham, White, ,Woodbridge, Wright*—35.

ABSENT—Mr Hannegan—1.

ANNEXATION PROPOSED IN A NEW FORM.

As soon as the vote upon the treaty was announced, and the injunction of secresy removed Mr Benton gave notice that on Monday he would introduce a bill *to annex Texas to the Union.*—No notice was given of the character of the bill, and it is hardly possible that any bill can be introduced which will obtain the sanction of the majority of the Senate or House of Representatives And a bill to pass would have to obtain the following provisions.

The assent of Mexico

A determined Boundary between the two countries.

Annexation without the payment of the public debt, which has now grown up to twenty-two millions of Dollars.

The settlement of the limits of Slavery.

There are members of Congress from the South who will warmly oppose the annexation of Texas, until this last question is settled—They remember the Missouri question, and prefer the Union as it is to the consequence of the change proposed.

Recent investigation of the lands owned by Texas and the debt of Texas, clearly prove that the debt very far exceeds the value of the lands The public domain of Texas indeed is covered with incumbrances, and it would partake equally of insanity and folly to agree to the payment of this debt, in consideration of the unappropriated portion of the Texas domaine, if indeed there is any unappropriated. E. B."

☞ Intelligence from Jamaica received by the way of New Orleans, states that early on the morning of the 14th of May, a brig was stranded off Stewart Castle Bluff; she is the "Gleaner," of Mount Desert; her cargo consists of gin, madder and nutmegs. In the course of the day the officers of the Customs boarded her, but from the state of the weather it has been impossible for a boat to remain alongside. About 140 pipes were thrown overboard and beached at Stewart Castle, also a few casks of madder and barrels of nutmeg. The remainder of her cargo appeared to consist of the two latter articles.—No papers or furniture were found, and her decks were overgrown with moss and sea-weed. The vessel and cargo were claimed for the American Government by Montague Salmon, Esq, Vice Consul of the United States, and also by Geo. Marrett, Esq, as the representative of the proprietor of Stewart Castle Estate.

Annexation in Missouri.

A correspondent of the Cincinnati Atlas, writing from St Louis, under date of May 27th, says:

"The Tylerites, Reporterites, and a considerable number of other '*ites*,' held an annexation meeting here, on Saturday night It seemed to me to be a sort of a death struggle with the speculators. The meeting broke up in confusion. You may depend upon it, this annexation buisness is cooling down fast Clay's prospects in this quarter grow better every day."

☞ In the House of Representatives on Saturday the Bill making Bangor a Port of entry passed to be enacted.

Court Courier.

In the District Court now in session in this city the trial of criminal causes was commenced on Tuesday.

Asa H. Pomroy was tried on an indictment for passing a two-dollar counterfeit bill knowing the same to be such with intent to defraud.—The Jury yesterday after a short absence returned a verdict of not guilty. *Hatch* for prisoner.

Yesterday *John Webber*, a boy of about 15 or 16 years of age pleaded guilty to a charge of procuring a sum of money under false pretences from Mrs John Goddard of Orono, and was sentenced to four months imprisonment in the County jail.

Henry Merrill (a colored boy) pleaded guilty to an indictment for stealing goods, &c. from Wiggins Merrill, and was sentenced to the House of Correction for six months.

James DeBoice (a colored boy) also pleaded guilty to indictment for stealing goods and money from the store of A. H. Gerrish in Lee.

CONGRESS.

WASHINGTON, Saturday, June 8.

In the Senate, Mr Woodbridge presented a remonstrance against the annexation of Texas. The memorialists represent that it is a violation of the original compact between the States, also, that the people made this constitution for themselves, and not for a foreign nation.

Mr Bagley, ageeably to notice, submitted, without comment, a resolutution condemnatory of the resolutions adopted by the Legislature of Massachusetts for an amendment to the Constitution, by which slave representation will be abolished. It lies over.

On motion of Mr Archer, the Senate went into Executive session, about fifteen minutes after 11 o'clock.

In the House, Mr Garrett Davis renewed his attempt to offer a resolution for an inquiry, by the Post Office Committee, into the official conduct of the Post Master General. The motion did not prevail.

Mr Hopkins gave notice that on Monday next, he would propose to take up the several bills which had been reported from the Committee on the Post Office and Post Roads.

The pension bill was finally passed. The bill grants a pensions to the widows of Revolutionary officers and soldiers married prior to 1800, and secures this pension during the lives of the prisoners. The bill is materially amended from the Senate, and has, therefore, to return to that body. It will doubtless become a law at the present session of Congress

The bill to regulate the arrests under *mesne* process in the District of Columbia, which passed the House to-day, provides that no female shall be imprisoned for debt, and that no non-resident shall be imprisoned for debts contracted out of the city.

Death of a Member of Congress.

The Washington correspondent of the N. Y. Evening Post says:

"Intelligence was yesterday received of the death of Hon A. H. Read, late a member of the House from Pennsylvania. Mr R. was a member of the 27th Congress, and was during that term unable for any length of time to attend with regularity to the discharge of his duties.—Since his re-election, his disease, consumption, has precluded his taking any part in the proceedings of the House. He died at his residence in Pennsylvania. His death will be announced to-morrow. As both Houses will adjourn over, according to custom, but five days remain for legislative business between now and the 17th instant. Upon a review of all the circumstances under which it is placed, it seems propable that Congress will feel compelled to rescind the resolution of adjournment, and for a week, or perhaps to the first of July."

Vetoes Expected.

It is believed in Washington that the President will return the two appropriation bills for the improvement of river navigation in the West, and the improvement of harbors on the Atlantic coast, with his objections.

Late from Santa Fe.

Three gentlemen arrived on Monday night last, direct from Santa Fe. The frontier ports are still closed against all traders from this country. Indeed, they are worse than closed, if possible for them to be so; for under a late regulation, no person is allowed to bring away any bullion, gold or silver coin, from the country, without first paying Government officers six per cent. on the amount brought away.

This, taken in connection with former acts on the part of the Mexican authorities, is peculiarly hard upon our traders

Our informants left Santa Fe about the 5th of April During their passage through the mountains, snow fell to the depth of two and a half feet. They state that the snow in the mountains is very deep, rendering it quite dangerous to pass them. They saw numerous companies of Indians of the Cumanche, Cheyennes and and Rappahos tribes. They were all friendly, however, and offered them no violence; they would not permit the occasion to pass, however, without taking all of their tobacco and extra clothing. [Western (Mo.) Expositor, May 18.

Dr. D. Jayne's
FAMILY MEDICINES.

JAYNE'S EXPECTORANT.

THIS invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Whooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soreness of the Breast, Difficulty of Breathing, and every other disease of the LUNGS and BREAST, can and do attest to its usefulness. BRONCHITIS, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of CONSUMPTION, is always cured by it. The usual symptoms of this disease, Bronchitis, are Cough, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a Spitting up of Phlegm or Matter, and sometimes Blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run throu every part of the Lungs. The Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a cure is soon effected.

It always cures ASTHMA. Two or three large doses will cure the CROUP, or HIVES of children, in from 15 minutes to an hour's time. It immediately subdues the violence of WHOOPING COUGH, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to perfect health by it.

If this Expectorant be given in the commencement of PLEURISY, INFLAMMATION OF THE LUNGS, or in acute RHEUMATISM, in doses sufficiently large, so as to cause a little nausea for some time, going to bed and covering up warm, it will produce perspiration, and subdue these affections at once.

PRICE $1,00.

Tonic Vermifuge.

WORMS IN CHILDREN. Of all diseases to which children are exposed, none are so fatal to them as Worms. Unfortunately, children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. They are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, and obstructing the bowels, and frequently the throat, causing convulsions, and too often death. The desired remedy will be found in Dr. JAYNE'S TONIC VERMIFUGE, which will very soon destroy the worms, and invigorate the powers of digestion so as to prevent a return of them. PRICE 50 cents.

JAYNE'S CARMINATIVE BALSAM.

This is one of the most efficient, pleasant and safe compositions ever offered to the public, for the cure of the various derangements of the *Stomach* and *Bowels*, and the *only* article worthy of the least confidence for curing CHOLERA INFANTUM or SUMMER COMPLAINT; and in the above and following diseases, it really acts like a charm, viz:

☞Dysentery, Diarrhea or Looseness, Cholera Morbus, Summer Complaint, Cholic, Griping Pain, Sour Stomach, Sick and Nervous Headache, Heartburn, Water-brash, Pain or Sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged; Want of Appetite, Restlessness and Inability to Sleep, Wind in the Stomach and Bowels, Hysterics, Cramp, Nervous Tremors and Twitchings, Sea Sickness, Faintings, Melancholy and Lowness of Spirits, Fretting and Crying of Infants, and for all *Bowel Affections and Nervous Diseases.*

PRICE 50 cents.

Hair Tonic.

NO EXCUSE FOR A BALD HEAD. Since the important discovery of Dr JAYNE'S HAIR TONIC, every one may, if they choose, preserve their hair from falling off, or if already bald, may, with certainty, have their hair restored again by a faithful and persevering application of this valuable HAIR TONIC.

Please to read without prejudice the following communication, which, in addition to hundreds of others equally respectable, should remove the doubts of every reasonable person of the uniform and singular efficacy of JAYNE'S HAIR TONIC.

HAMILTON, Feb. 15, 1840.

Dr. D. Jayne—Dear Sir: I cannot say my hair is restored, but I can say that it appears to be in as rapid a process of restoration as could reasonably be expected. I had not finished the first bottle, before a decided change was manifest over the bald part of the head, to which it was applied. A new growth of fine glossy hair, much like that of an infant, appeared, and has continued to increase, and I have had it cut two or three times. I have recently commenced upon the third bottle, but have been a good deal irregular in the use of the Tonic from the first, and from this cause I apprehend the effect is at present less than it otherwise would have been.

I began the use of the Tonic with little or no faith that it would ever be successful on my head, though I felt entire confidence in your statements of what it had done for others; and I was as much surprised as delighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch long at the times I have had it cut, on those parts which were nearly destitute of any when you saw me. It was, however, very fine, though quite thick. I am flushed with sanguine hopes of final success, in the diligent use of your Tonic, which, amidst all the hair humbugs which have been advertised in the papers, I am constrained to believe is what it claims to be, and that it will make the hair grow, and no mistake, at least on some heads.

GEO. W. EATON,
Prof in Hamilton Lit. and Theological Seminary,
Madison County, New York.

PRICE $1,00.

Jayne's Sanative Pills.

These Pills are an excellent, mild and safe purge at all times, and are exceedingly useful in Dyspepsy and obstructions of the Liver. Persons taking them can eat and drink as usual, without fear of injury; and, what is of infinite advantage, making the use of mercurial preparations, so frequently used in derangements of the stomach and liver, unnecessary.

These Pills may be taken at *all times*, and are beneficial in nearly *all diseases*. They have long been a favorite prescription of the proprietor for all obstructions of the Liver, Spleen, Kidneys, Uterus, and all other organs of the body—Inflammatory, Intermittent, Remittent, Bilious, and every other form of Fever—Jaundice and Liver Complaint. For Dyspepsy they are really an invaluable article, gradually changing the vitiated secretions of the stomach, and producing healthy action in that important organ. They are very valuable in diseases of the Skin, and for what is commonly called "impurity of the blood"; also for Female Complaints, Costiveness, &c. &c.—and in fact every disease where an Aperient, Alterative or Purgative medicine is required.

☞ Four fifths of the numerous and distressing cases of DYSPEPSY POSITIVELY CAN BE CURED by a persevering use of this valuable SANATIVE.

They are expressly prepared to be used as an Aperient, when purging is necessary, while using his Expectorant, and for the removal of obstructions in the Liver, which are often attendant on some of the diseases of the Breast.

Prepared only by Dr. D. Jayne, Philadelphia.

And for sale, Wholesale and Retail, by SMITH & FENNO, Booksellers, 14 West Market Square, Bangor.

FRANKLIN MUZZY & CO.

NEW PRINCIPLES OF PURGATIO
CORNARO'S
Purifying and Preservin
PILLS.

THE American public has for a long time be the victim of a false and dangerous system medicine founded on the practice of LONG CO TINUED AND UNRELIEVED PURGATIO The evils of this old system are of the most wid spread and alarming character. They have reac ed through every vein and artery of our nation. In every city, and village, and hamlet—in eve State and Territory of our vast Republic, will found those who have suffered, or who are still su fering from the injurious effects of this old syste of whose practical utility the disease, decay, a utter prostration of those who test it furnish th most condemning proofs!

COMMON DRASTIC PURGATION

Scours out the system by the most improper a violent means, and then leave it, weak, low, feeb debilitated, to regain its strength as best it may.— Sometimes the consequences of this old Purgati practice are worse than mere Debility. Inflamm tion of the Bowels, Slow Fever, Bloody Piles, a other horrible disorders are produced, simply fro the want of some enlivening and preserving powe in the medicine employed. Sometimes the dige tive organs are deeply and permanently injured b this coarse and unphilosophical practice, leaving th patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old syste of Purgation, have led to the introduction of a ne Life-giving Medicine, called CORNARO'S PUR FYING AND PRESERVING PILLS, which a established on this new and only true principle Purgation, viz:

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remed strikes a death blow to that abominable syste which by continually evacuating the bowels wit out any conservative or saving power, so dreadful and fearfully prostrates and injures the unhappy p tient. These Purifying and Preserving Pills a believed to constitute the perfection of medicin being a UNIVERSAL VEGETABLE PURGA TIVE, containing two great remedies combine viz: One remedy to PURIFY FROM CORRUP TION, and another to PRESERVE FROM INJU RY AND DECAY.

And for the purpose of attaining the highest de gree of purity in the preparation of these Pills, D Bradlee has, at a vast expenditure of time an money, invented and patented at Washington, chemical and philosophical apparatus for distilli and refining vegetable extracts, called

THE SEVEN-FOLD FURNACE,

A powerful and novel machine—having Seven Fire and Seven Alembics, with distilling, condensin and evaporating fixtures of a new and ingeniou contrivance, capable of obtaining more than seve times the ordinary purity of any vegetable extrac heretofore used in compounding medicine. The Balsamic and Preserving power of these Pills i also, by this invention, highly purified and refined and so mingled with the operative medicine, that i repairs all the injuries created by Purgation as soo as they are caused, and strongly fortifies the sy tem against future corruption and decay.

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine whic purges merely, without renovating or preserving, ca be a perfect remedy. For it is a fixed and immutable law of our being that there should be, in no case Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that al Purgatives which DO NOT possess a saving an preserving power, are injurious, and injurious only— and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation i based upon unnatural and absurd laws, and they who follow it fall victims to their own folly, and too late repent their temerity.

☞BEWARE OF UNRELIEVED PURGATION! Purge and Preserve, or do not attempt to Purge at all.

☞The celebrated PURIFYING AND PRESERVING PILLS, purify the body from corruption and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice, Indigestion, Dyspepsia, Eruptions of the Skin, Scrofula, Piles, Costiveness, Bilious Disorders, Liver Complaint, Fevers, Nervous Disorders, Inward Weakness, Cholic, Dysentary, Worms, Gout, Rheumatism, Female Complaints, Depression of Spirits, Debility of System, Fits, &c., &c.

☞Price 25 cents per Box, with full directions, Essay on Health and Long Life, &c.

Sold, wholesale and retail, by the sole proprietor, D. F. BRADLEE, 79 Court Street, corner of Brattle street, Boston.
